FULL BLOOD MOON + LUNAR ECLIPSE IN LIBRA- CREATE HARMONY INSIDE & OUT

“ And that’s when you know / you will live whether you will or not, / one way or another, / because everything is everything else, / one long muscle. / It’s no more mysterious than that. — Mary Oliver, *Pink Moon — The Pond* ”

We are birthing blood moons. We are birthing possibilities.

The 4th of April welcomes a Full Moon and Total Lunar Eclipse in Libra. A *Blood Moon*. Along with the Lunar Eclipse, which represents endings and completion, the full phase of the moon represents the crone: heightened intuition and wisdom, clarity and the illumination of the hidden subconscious. Emotions and intuition are high during the full moon, so any subconscious emotions may rise to the surface to be evaluated.

According to Roman mythology, Libra is said to depict the scales held by Astraea, the virgin goddess of justice, who also represents the sign Virgo. Libra, an air element, is associated with diplomacy, peace, relationships, love and giving and receiving. Opposite Libra is the sun in Aries, associated with assertiveness, impulsiveness and adventure.

This Blood Moon symbolizes our conscious/subconscious awareness of ourselves and our relationships. In the feminine amber, we find dark mystery and fully-blossomed light. There is a shadow edging its way through our beings, just as the amber shadow of the Earth passes across the Moon. We are faced with remaining stagnant or embracing all that we are becoming.

The Sun in Aries brings forth an awareness of self while the Moon in Libra brings an awareness of other. By learning to balance what is within and what is without, there is potential for the highest wisdom to come through and healing to occur. The Blood Moon asks:

How is your feminine intuition guiding you to release what is dying and embrace what is to be born?

This is a time to bring awareness to oneness. You are both the wave and the ocean; the bird and the sky. Allow the feminine energy of creativity to bring forth new potentials for growth, change and transformation. What has come to pass has come to serve your growth and must endure a peaceful release. Being in a state of gratitude and mindfulness will keep you in harmony and allow for new beginnings to come through. Explore what is serving you and what is not, whether it is in relation to yourself—body, mind, soul—or others—people, animals, nature. Ask yourself:

Am I allowing harmony to manifest within myself and my relationship with the world?
